

CELEBRATING
10
Years

AISM Community,

*It is with **great honor and great pride** that you are cordially invited to the American International School of Monrovia 10th Anniversary **Commemoration and Performance** celebration.*

As the former U.S. Ambassador (Ret) Donald Booth, who was posted in Liberia in 2007 when the school opened, remarked:

“AISM has survived incredible obstacles - a difficult birth, a global recession and the Ebola epidemic. Nonetheless, AISM has emerged stronger and positioned to remain an institution of academic excellence for generations of students to come.”

*We are very much looking forward to celebrating **this milestone occasion** with you!*

*With U.S. Accreditation, as a **firm stability marker**, the stage is now set for an even more successful decade of growth and progress for AISM. Over the course of our second decade, **we will** continue to strategically improve our students' educational experience here at the American International School of Monrovia.*

See you next Friday!

Jeff
