

**Information about "Bring Your Own Chromebook"**

One of the areas that our team of educators has been actively working on is the enhancement of our **technology integration in the classroom**. To that end, parents of students in **Grades 1 and higher** are welcome to purchase a Chromebook that is **compatible** with our school Information Technology **system** and **protocols**.

Chromebooks, which run Google operating system, was chosen because of our use of their applications for education. Google Apps are also GDPR compliant. These devices are listed below, and parents can purchase these Chromebook units\* to assist their students' learning, both at home and at school: **Please note that prices are subject to change without notice. Only these chromebooks are allowed to be enrolled in our school safety software.**

Brand	Model	Price from:	Website
1. ASUS	C214MA-YS02T	\$349	<a href="#">Asus Chromebook Flip</a>
2. Dell	C213SA-YS02	\$359	<a href="#">Dell 3100 2 in 1</a>

\*Please note that the school will have a small technology fee, of around \$30, that will go towards **our cyber safety software**, to keep your **students safe** while using their computer **at school**.

Students who choose not to purchase their own computer at this time will still be able to have access to the AISM computer network via school computers, which are subject to availability.
